

Rate of approximation for generalized operators ¹

R. K. Gangwar, V. K. Jain

In memory of Prof. dr. Alexandru Lupas

Abstract

In the present note we study the certain integral modification of well known Baskakov (Lupas) type operators $B_{n,\alpha}(f, x)$. Here we estimate the rate of approximation of these operators for bounded functions satisfying certain growth condition.

2000 Mathematics Subject Classification: 41A25, 41A35.

Key words and phrases: Baskakov operators, Lupas operators, Rate of approximation.
